PREFACE

This annual publication titled, 'Industrial Disputes, Closures, Retrenchments and Lay-Offs in industries in India' provides statistics on work-stoppages, closures, retrenchments and lockouts which is useful in making policies for maintaining cordial and harmonious relations between the management and the worker. This report is also aimed at meeting the demand for historical data and information on industrial conflicts and their causes by the planners, policy makers and decision makers in industry and government.

2. *The current edition presents statistics of Industrial Disputes resulting in temporary work-stoppages, permanent closures, retrenchments and lay-offs during the year 2018. Though every effort has been made by the Bureau to bring out this publication in time, there has been delay which is primarily due to delay in submission of primary returns by the State and Central Agencies. Labour Bureau is however committed to reduce the time lag with the active co-operation of these Agencies.*

3. *I express my sincere thanks to the State Governments as well as the Regional Labour Commissioners (Central) for their support and cooperation in furnishing the requisite data without which it would have not been possible for us to bring out this publication. I also take this opportunity to thank the team of officers of Labour Bureau for the efforts put in by them in bringing out this edition of the publication.*

4. *I earnestly solicit suggestions for improvements in the scope, content and presentation of the publication so as to make the same more useful to the users.*

Summary of Main Findings

This edition of publication titled “Statistics on Industrial Disputes, Closures, Retrenchments and Lay-offs” compiled on the basis of the information furnished / supplied voluntarily on monthly basis by the Labour Commissioners of the States and the Regional Labour Commissioners (Central) presents statistics on Industrial Disputes resulting in temporary work-stoppages, permanent closures, retrenchments and lay-offs during the year 2018.

During the year 2018, 86 industrial disputes (Strikes and Lockouts) occurred in which 742,968 workers were involved and 3,149,554 mandays were lost as compared to 112 disputes, 762,832 workers involved and 5,233,467 mandays lost in 2017. Of the total disputes, 76 (88.37 per cent) involving 37,280 (5.02 per cent) workers resulting in a loss of 2,113,976 (67.12 per cent) mandays occurred in State Sphere and remaining were in Central Sphere.

Of the total disputes (strikes and lockouts), 14 (16.28 per cent) were in the Public Sector which involved 698,836 (94.06 per cent) workers resulting in a time loss of 1,030,764 (32.73 per cent) mandays. Whereas the number of disputes in Private Sector were 72 (83.72 per cent) which involved 44,132 (5.94 per cent) workers resulting in a time loss of 2,118,790 (67.27 per cent) mandays.

As a result of 86 industrial disputes reported during the year 2018, loss of wages was reported as Rs. 2,499,158,608 (in 40 cases) and production loss was Rs. 524,739,515 (in 18 cases).

Among the states, Tamil Nadu accounted for the highest number of disputes (i.e. 26 or 30.23 per cent) whereas among the industry groups, it was the manufacturing sector (NIC Code 10 to 33) which accounted for the highest share of disputes i.e. 73.25 per cent or 63 cases. “Wages & Allowances” was the main cause which accounted for 30.23 per cent, followed by “Charter of Demands” 24.42 per cent of the total disputes during this period.

The temporary work-stoppage has two components – Strikes and Lockouts. Out of total 86 industrial disputes reported during 2018, 69 (80.23 per cent) were strikes and 17 (19.77 per cent) were lockouts which shows a decrease in strike of 18 (20.68%) and a decrease in lockout of 8 (32.00%) than from the previous year 2017. Among the states, Tamil Nadu accounted for the highest number of strikes i.e. 21 (30.43 per cent), Kerala and Tamil Nadu accounted for the highest number of lockouts i.e. 5 each (29.41 per cent).

The number of work-stoppages due to reasons other than industrial disputes during the year 2018 was 18 in which 506,308 workers were involved and 9,069,134 mandays were lost. All these work-stoppages were lockouts.

INTRODUCTION

Labour Bureau has been bringing out Statistics on “**Industrial Disputes, Closures, Retrenchments and Lay-offs in India**” based on the voluntary returns received every month from the Labour Departments of the States and Union Territories and the Regional Labour Commissioners (Central). The present edition, which has two parts, is for year 2018. The first part deals with industrial disputes which include strikes and lockouts whereas second part deals with Closures, Retrenchments and Lay-offs. The industrial disputes, which resulted in temporary stoppage of work either by the employees of an establishment to express a grievance or to enforce a demand known as ‘strikes’ or by an employer (or a group of employers) who withhold work from the employees in an establishment known as ‘Lockout’, in connection with matters relating to employment or non-employment or terms and conditions of employment take place as and when there is lack of mutual understanding, difference of opinion and failure to settle the disputes between the managements and the workers / labour trade unions. As the managements and workers both strive to rationalize their gains and losses in economic activities the conflicts are bound to occur.

The Departments of Labour in the States/Union Territories and Regional Labour Commissioners (Central) are responsible for collecting the basic information in respect of the work stoppages from the affected Primary Units in the State and Central Spheres respectively whenever such occurrence of a work-stoppage becomes known either directly or from the supplementary sources like police records etc. as per the practice in vogue in different States / areas. They collect the required information in standard formats laid down for the purpose from the units under their jurisdiction on a voluntary basis and furnish the same in consolidated monthly returns to the Labour Bureau on or before 25th of the each succeeding month.

The statistics on industrial disputes brought out by the Labour Bureau include information in respect of those temporary work-stoppages only which include (a) strikes, (b) lockouts, and (c) *gheraos* followed by lockouts and involving 10 or more workers, whether directly and/or indirectly as work-stoppages which involve less than 10 workers are not included / accounted for. Similarly, political strikes, sympathetic demonstrations etc., are also not included, as they are not connected with any specific dispute, grievance or demand of the workers and are beyond the competence of their employers to redress. The data for such work- stoppages is presented separately in Chapter-4 of the publication.

This publication contains various important components of the statistics on Industrial Disputes such as the maximum number of workers affected directly or indirectly on any day during the entire period of the work-stoppage; the number of mandays lost which are calculated by adding up the actual resultant absences caused directly or indirectly by the work stoppages, in each shift of the potential working day (excluding weekly off and other scheduled holidays when the establishments would have otherwise remained closed even if no work stoppages had taken place); the number of disputes; duration of disputes; wages lost; and the value of production loss. The statistics relating to the number of disputes, workers involved and duration are independent variables whereas the statistics of mandays lost, wages lost and the value of production loss are mainly dependent on them.

The statistics on industrial disputes have been presented in four chapters. ‘Chapter-1’ presents a brief comparison of the industrial disputes and the resultant man-days lost which occurred in the country during the years 2017 and 2018. ‘Chapter-2’ presents a detailed analysis of the work

stoppages during the year 2018, by months, by states/union territories and by industries etc. for the public and private sectors taken together. In addition to this, all India Strikes / Lockouts have also been presented. 'Chapter-3' contains the information on the work-stoppages during the year 2018 in the Public Sector alone. 'Chapter-4' deals with the statistics relating to Political / Sympathetic Strikes and disputes due to reasons other than industrial disputes.

The data on Closures, Retrenchments and Lay-offs have been presented in three chapters. 'Chapter-5' contains data on Closures of industrial establishments, sphere, sector, state, cause and year-wise. A closure (permanent closure) of an industrial establishment may be due to industrial dispute and / or reasons other than industrial disputes like financial stringency, lack of demand for the products, shortage of raw materials etc. Chapter-6 presents data on Retrenchments of workers in industrial establishments by years, spheres, sectors, states and cause-wise. Chapter-7 contains data on Lay-Offs of workers during 2018.

The glossary of terms and concepts used in this edition as defined in the Industrial Disputes Act, 1947 are given below

- **WORK STOPPAGE:**

Work stoppage means a temporary stoppage of normal activity in an industrial unit as a result of which the workers employed in the unit are forced to remain away from their usual duties. Such a work stoppage may be either due to industrial dispute or for reasons other than industrial disputes, viz. financial stringency, strategic considerations, breakdown of machinery, natural calamities, accumulation of stock, lack of demand, shortage of raw materials, or failure of power, legal disputes. Thus, the work stoppages are generally known as strikes and lockouts.

- **INDUSTRY:**

Section 2(j) of the Industrial Disputes Act, 1947 defines industry as any business, trade, undertaking, manufacture or calling of employers and includes any calling, service, employment, handicraft, or industrial occupation or avocation of workmen.

- **INDUSTRIAL DISPUTE:**

The Act defines the industrial dispute as a dispute between:

- i)
 - a) employers and employers;
 - b) Employers and workmen;
 - c) Workmen and workmen;
- ii) The dispute or difference should be connected with the
 - (a) Employment or non- employment, or
 - (b) Terms of employment or conditions of labour of any workmen;
- iii) The dispute may be in relation to any workman or workmen or any other person in whom they are interested as a body.

- **STRIKE:**

The section 2(q) of the Act defines the term ‘strike’ as cessation of work by a body of persons employed in any industry acting in combination, or a concerted refusal, or a refusal, under a common understanding of any number of persons who are or have been so employed to continue to work or to accept employment.

- **LOCKOUT:**

‘Lockout’ as defined in Section 2(l) means the temporary closing of a place of employment, or the suspension of work, or the refusal by an employer to continue to employ any number of persons employed by him.

- **WORKER:**

Section 2(s) of the Act defines “workman” as any person (including an apprentice) employed in any industry to do any manual unskilled, skilled, technical, operational, clerical or supervisory work for hire or reward, whether the terms of employment be express or implied, and for the purposes of any proceedings under this Act in relation to an industrial dispute, includes any such person who has been dismissed, discharged or retrenched in connection with, or as a consequence of, that dispute, or whose dismissal / discharge or retrenchment has led to that dispute.

- **EMPLOYER**

As per section 2(g) of the Act the ‘employer’ means (i) in relation to any industry carried on by or under the authority of any department of the Central Government or a State Government, the authority prescribed in this behalf, or where no authority is prescribed the head of the department; (ii) in relation to an industry carried on by or on behalf of a local authority, the chief executive officer of that authority.

- **GHERAO:**

In addition to strikes and lockouts, another form of industrial dispute that has gained eminence lately is “Gherao” which means physical blockade, partial or complete, of a target either by encirclement intended to block the regress and ingress from and to a particular office, workshop, factory or even residence or forcible occupation of such premises. The target may be a place or a person or persons, usually the managerial or supervisory staff of an industrial establishment.

- **CLOSURE:**

Closure under section 2(cc) of the Industrial Disputes Act, 1947 means the permanent closing down of a place of employment or part thereof.

- **RETRENCHMENT:**

Under section 2(oo) of the Act “retrenchment” means the termination by the employer of the service of a workman for any reason whatsoever, otherwise than as a punishment by way of disciplinary action, but does not include –

(a) Voluntary retirement of a workman; or

(b) retirement of the workman on reaching the age of superannuation if the contract of employment between the employer and the workman concerned contains a stipulation in that behalf; or

(c) termination of the service of a workman on the ground of continued ill-health.

- **LAY-OFF:**

As per section 2(kkk) of the Act ‘Lay-offs’ means the failure, refusal or inability of an employer on account of shortage of coal, power or raw materials or the accumulation of stocks or the breakdown of machinery or natural calamity or for any other connected reason to give employment to a workman whose name is borne on the muster rolls of his industrial establishment and who has not been retrenched.

- **SPHERE:**

The sphere refers to the jurisdiction of the State or Central Agencies to execute the provision of the Act, act as arbitrators for settlement of disputes between the workers and the employers, enforce the settlement of disputes in their jurisdiction and report the occurrence of such disputes.

- **POLITICAL/SYMPETHTIC STRIKES:**

Strikes resorted to by workers of an industrial establishments not because of any disputes connected with industrial disputes, grievance, or demand of the workers and are beyond the competence of the employer to redress. Generally such strikes are resorted to for some political cause or in sympathy of workers of other industrial establishments as solidarity.

- **LIMITATIONS:**

This publication is based on the monthly returns submitted by the concerned authorities and includes all supplementary information received in the Bureau. Though the Labour Bureau tries its best to include information from all the concerned agencies, at times, it may not be possible to include every information in the publication either due to inconsistencies in the data or non submission of return by concerned agencies. Labour Bureau endeavours to elicit the desired information and also to get the clarifications corrected through electronic communication system and also through regular correspondence and visits etc. The concerned authorities are however not that reactive to furnish the information well in time. Since Bureau has to compile and disseminate statistics within a reasonable period of time, it finalizes the same on the basis of available data without waiting for pending returns / clarifications. The Labour Bureau is, however, committed to bridge the gap in data by making every possible effort.

4	4	The name of the concern with complete address is to be given indicating whether it belongs to Public Sector, Private Sector, Joint Sector or Co-operative Sector by giving the symbols PUB, PVT, Jt. and Co-op. respectively.
5	5	'Strike' may be indicated 'S' and 'Lockout' by 'L'. If a strike is followed by lockout at a later stage, this fact should be indicated in the Remarks column indicating the date of the lockout. In such cases, 'S/L' may be written in column-5 and under subsequent columns information should be given separately for the period of 'Strike' ad 'Lockout'. If the information relating to Industry, Sector of Ownership, Nature of Work Stoppage, Dates of Starting and Ending, Result, Method of Settlement and Affiliation to Central Workers'/ Employers' Organization is identical in respect of work stoppages which take place in a number of units on the same issue/ demands/ grievances within the same State/Union Territory, then this case is to be taken as a SINGLE DISPUTE and the information should be furnished in a consolidated manner as if it is for a single dispute. In case of 'Go Slow' or 'Gherao', please specify.
6	6	Cause of unrest is to be reported as per the following codes along with the description :

<u>Code</u>	<u>Part A</u>	<u>Code</u>	<u>Part B</u>

20	Not Known		
7	-	Work stoppage may be due to non-implementation of :	
		<u>Reasons</u>	<u>Code</u>
		Labour Enactment	(x)
		Labour Award	(y)
		Labour Agreements	(z)
		Under this column the appropriate code is to be reported	
8	7	The actual date when the work stoppage began is to be given.	
9	8	The last date when the work stoppage was current during the month is to be reported under this column. A work stoppage should be taken as terminated when the establishment has returned to its normal activity having filled up all or a sufficient number of vacancies caused by a work stoppage either by restoring the workers involved or by employing new hands. In case the work stoppage remained in progress during the next month also, the word 'continued' may be written.	

10	9	<p>(a) Only potential working days should be taken into account here. Thus, weekly offs and other scheduled holidays when the whole of the establishments would have remained closed even if a work stoppage had not taken place should not be counted in the duration. However, in case of continuous process factories, which work on all the days during the year, all the days would be reported.</p> <p>(b) Duration of less than a day should be specifically stated so.</p> <p>(c) If the work stoppage is continuing from earlier month(s) and if the work stoppage is terminated during the month under report, the figure to be given in this column is the duration of the work stoppage since its commencement and up to the day of termination in the current month under report.</p>
11	10	This number should be taken as the number of workers employed on the last regular working day of the month preceding the one in which the work stoppage took place and should include permanent, casual, temporary workers also but should exclude any worker employed on special item of work not normally carried on by the employers.
12 & 13	11 & 12	The number 'affected directly' should be taken as the number of workers who are involved in the work stoppage. Other workers rendered idle due to the occurrence of the work stoppage should be taken as the number of workers 'affected indirectly'. The 'maximum number' means the maximum number of workers affected on any day during the course of the work stoppage.
14 & 15	13 & 14	Man-days lost are obtained by adding actual vacancies caused by the work stoppage in each department in each shift. Here workers affected both directly and indirectly should be taken into account.
16 & 17	15 & 16	Figures in these two columns should be reported with the help of ACTUAL WAGE RECORDS. If there is need for estimation, it should be worked out by multiplying the number of man-days lost with the average wage per man-days including all cash allowances.
18 & 19	17 & 18	Actual value (in Rupees) of production loss is to be reported. This may be estimated in terms of money by taking the average net value of normal production of the establishment per manday (from the average figures of THREE WAGE PERIODS) and multiplying it by the total number of mandays lost.
20	19	<p>It should be based on the extent to which workers demands are met and should be shown under the following heads :</p> <p>(i) Successful</p> <p>(ii) Partially successful</p> <p>(iii) Un-successful</p> <p>(iv) Indefinite (i.e. work resumed pending negotiations or matter under dispute referred to an Industrial Tribunal)</p>
21	20	'Yes' or 'No' to be reported; 'Yes' when intervened by officers of the Industrial Relations Machinery for a settlement and 'No' when it is not so. The name of machinery, viz., SIRM or CIRM in brackets should also to be indicated giving the designation of such Officer, who intervened.
